

**Mississippi Department of Agriculture and Commerce
Regulatory Services – Petroleum Division
Inspector, Regulatory Services, Trainee**

The Petroleum Division executes the laws, rules and regulations of the Petroleum Products Inspection Division to insure that the public is receiving the quality and quantity of petroleum products purchased.

Duties include:

- Test fueling devices for accuracy
- Collect samples of petroleum products for quality
- Conduct investigation of complaints
- Test underground storage tanks for water
- Check price signs and device display signs
- Complete inspection reports on a laptop computer
- Maintain state vehicle and other equipment
- Complete accurate and timely records
